### **DETAILED ACTION**

Applicant's amendments filed December 28, 2006 have been entered.

Applicant's remarks, taken with the amendments filed December 28, 2006, have been considered, and are found persuasive to withdraw the outstanding rejection under 35 USC 103(a). The instant claims are directed to the specific oligosaccharide with molecular weight less than 3000 dalton. Therefore, the cited prior arts do not renders the instant claims obvious.

Claims 1, 5-13, 16-19, 21-32, and 34-36 are pending.

As the species are found allowable, the search have been extended to all of the species encompassed by the claims.

New grounds of rejection are set forth below.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5, 6, 22, 23, and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 5, 6, 22, and 23 are depending from a cancelled claim. Therefore, the metes and bounds of the claims cannot be determined.

Appropriate correction is required.

The term "DS Po821" recited in claim 26 renders the claim indefinite as to what compound is encompassed by the claim. Appropriate correction is required.

Art Unit: 1617

***Allowable Subject Matter***

Claims 1, 7-13, 16-19, 21, 24, 25, 27, 28, 30-32, and 34-36 are allowed.

Claim 29 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
